

The apartment is a new one bedroom luxury holiday home, on the first floor of a new small residential apartment block, built in a mature locality, and provides all the comforts of home for 4 people.

It is ideally situated in the heart of Juan-les-Pins, 300m from the beautiful sandy public beach, a few minutes walk from the village centre and 50m and 100m from Leader Price and Spar supermarkets respectively.

Immediately across the road is Jardin Pauline – a small park with lawns, palm trees and benches including a well equipped children's play area. The equipment was renewed in 2007. There is also a very good children's play area 150m along the road.

Although the building is on a very busy road the apartment is at the rear and is, therefore, very quiet. In addition it has excellent sound insulation, complying with the latest French regulations, and double glazing.

A car is not required to visit the many attractions (however, there is a designated parking place in the underground car park) – a bus stop is immediately at the front of the building and the railway station is a short walk away. Both services serve the coastal region and the bus service to Nice also goes direct to the airport.

The balcony faces south and has sun on it for most of the day.

comprises of a hall, lounge with a kitchen at one end, bedroom, separate bathroom and toilet in 44sqm of interior space plus 8sqm of balcony.

There is a lift to the apartment and a lift down to the garage which makes it suitable for disabled persons.
